The GBG 10 in One is safe for everyone and EVERYONE in your family needs to be on the product unless there is some sort of pre-existing health condition that would require the consultation of a physician.

The more product you order, the cheaper the shipping of the product, so if you have four members of your family who can take the products, it is recommended that if you want to remain a customer and not participate in the free home business that you order these products together.

Step 1 – Become a Product of the Product – The GBG 10 in One is the flagship product of GBG for a reason. This is a product that everyone needs to be taking INCLUDING YOU! If you are going to tell people about this product and be successful, you have to experience it yourself. The only way to do that is to take the product every day.

Step 2 – Qualify for Residual Income – Residual Income is the best way to build real wealth because you do the work once and get paid over and over again. With GBG, qualifying for residual income is easier than ever thanks to the copyrighted pay plan.

When you get two customers on auto-ship, you will immediately qualify for over \$2,000 a month in residual income potential.

Are you serious about being a business builder in GBG?

If you are serious about being a GBG business builder, one of the best ways to get off to a fast start is to qualify your position by signing up people who are close to you. You can sign up members in your immediate family like your wife and children. Remember, your first two positions will get all of your spill.

Why not put the people who are most important to you in those positions since everyone in your household needs to be taking the product?

Instead of ordering multiple bottles through yourself every month, sign everyone in your household as individual customers of GBG. This will immediately qualify you for residual income and you will make a \$10 fast start immediately off of your first two and \$20 from your third customer on.

Step 3 – Become a SRM – SRM stands for Senior Regional Manager. This position increases your pay potential exponentially. You will go from a possible \$2,000 a month in residual income potential to over \$17,000 a month. All you have to do to qualify for the SRM position is help any of your two customers, get two each.

Why not help your first two get their two customers and immediately qualify for the SRM position?

Getting customers in GBG is easy. We are not business brokers out there promoting a business opportunity. You tell everyone you know about the restaurants you eat at and the products you buy that make a difference in your life anyway.

Why not tell them about the GBG 10 in One, a product that will benefit their health?

Step 4 – Teach your team to do the same thing!

Many people who have tried network marketing and failed made one mistake. They gave up... You need to establish yourself as a leader RIGHT NOW! If you want to be successful, there is absolutely nothing standing in your way. Keep the lines of communication open between you and your team. Get in touch with your up-line and ask them for advice on how to build your business.

PLUG IN to what the team is doing and have your members do the same. You want people to duplicate what you do and if you are not taking the appropriate steps to build your business, do not expect people on your team to do what you are not doing.

Make it your NUMBER ONE PRIORITY to build relationships with people up-line, down-line and sideline to you in this business.

Step 5 – Decide where you will be two years from now! – GBG is an exciting business that provides average people with the ability to make their financial dreams their life. Part of being successful in this industry is planning your success.

If you do not have goals of where you ultimately want to end up, you are a ship just floating around out there on the seas with no sails. You MUST establish yourself as a person who has direction. You MUST KNOW where you are going to end up.

This business is not a get rich quick scheme. If you want to become rich, you are going to have to have a plan, regardless of what you are doing to get rich.

RIGHT NOW, you need to make a two year commitment to work this business. The products are affordable and you need to be taking them every day. These products are making a real difference in the lives of people everywhere. If you are taking the products and not telling others about them, you are doing people a disservice.

MAKE THE COMMITMENT TO WORK GBG FOR 2 YEARS. Tell everyone you know and people you do not know about the amazing products and you will be glad you did.

Step 6 – Avoid Procrastination – One of the biggest problems people face in any business is overcoming procrastination. This is especially true when the business involves taking to other people. No one wants to be known as the guy or girl who is always pitching their business opportunity.

GBG is simple...

You do not have to pitch anything because you have all of the tools you need to educate people and the system is designed to do the selling for you. All you have to do is tell people what you have available. It is as simple as telling them to check out your website.

Do not over plan your marketing strategy! Everyone who gets involved in a home business can day dream about what their business can become, but if you are not willing to get off the couch and implement the strategy, all of the planning and dreaming in the world will do you no good.

Here is the strategy simplified.

TELL EVERYONE YOU KNOW and everyone you can that you do not know about the GBG 10 in One Liquid Vitamin.

FOLLOW UP WITH EVERYONE YOU TELL BY SIMPLY ASKING THEM IF THEY HAVE ANY QUESTIONS... Get them on the phone with your up line ASAP and close the deal by telling them that they can get started risk free. Remember, every bottle of the GBG 10 in One comes with a 60 day, empty bottle, money back guarantee.
